

Every
drop
counts

The water in this washroom is precious

Did you know we're taking too much water out of our rivers?

If we all continue to use water at the current rate, demand will exceed supply within the next ten years.

By the year 2050, there may be days when our taps run dry.

Top Tips for reducing
how much water we use

Please dispose of unflushable waste in our hygiene bins

**Remember, only the three Ps are flushable:
paper, poo and pee**

Did you know that putting anything else down the toilet runs the risk of blocking sewers, which increases the likelihood of sewage being released into rivers?

This includes tampons and wet wipes which brand themselves as 'flushable'.
