About us

Your trusted
service partner

Simply Washrooms is an independent, family-owned washroom services company. We provide premium quality and sustainable workplace hygiene and washroom service solutions to a diverse range of sectors – from hotels and restaurants to large corporates, manufacturers, care homes and sports stadiums.

Certified

Corporation

Service excellence

With over three decades of industry experience, our reputation for excellence has led us to be the trusted and preferred partner for many of the UK's largest facility companies.

We understand commercial washrooms are demanding environments and we're specialists at servicing washrooms in busy facilities. Our extensive range of services ensures your facilities are always serviced to the highest standards and provide you, your staff and guests with a welcoming, clean and hygienic experience.

Sustainability first

In 2023, Simply Washrooms became the first and only certified B Corp in our industry – a reflection of our relentless drive to operate as a responsible business.

We're proud to offer the most sustainable range of washroom solutions in the industry and we're constantly working to increase our positive impact on the planet.

Sustainability is embedded into all our business practices. We work with forward thinking suppliers and partners, and we strive to provide a work environment that is supportive, fulfilling and aligned with our staff's values and aspirations.

We are constantly challenging ourselves and the industry at large through our dual focus on service excellence and sustainability.

**We believe as a business we can –
and should – be a force for good.**

Sustainable Hygiene Units

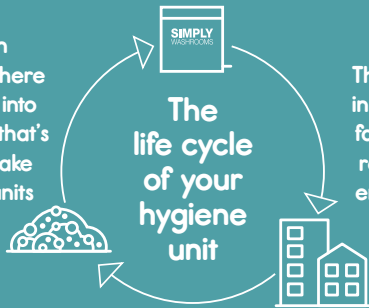

We understand disposing of hygiene waste is a sensitive issue. That's why we provide a discreet, reliable and hygienic service whilst ensuring your waste is disposed of in a sustainable way.

Our sleek and stylish range of non-virgin recycled plastic hygiene units

It's then recycled where it's turned into aggregate that's used to make our new units

The life cycle of your hygiene unit

The unit stays in situ at your facility until it reaches the end of its life

Our fully recycled range

Our most popular range of hygiene units are 100% free of virgin plastic – designed and manufactured uniquely for Simply Washrooms. Available in black or grey finish, these units can also be fully recycled at the end of their life, making them the product of choice for businesses that put sustainability first.

Black
100% Recycled

Grey
100% Recycled

Capacity: 23 litres or 15 litres

Dimensions: 510mm(w) x 550mm(h) x 160mm(d)
510mm(w) x 400mm(h) x 160mm(d)

Finishes: Black, grey

Key features

- Sleek and modern design
- Available in all black finish exclusive to Simply Washrooms
- Innovative reversible top cover for easy location either side of the cubicle
- Designed with soft edges to aid cleaning
- Available in pedal operated or auto-sensor model (grey only)
- Unit can be recycled

Hygiene Services

Male incontinence

We recognise men of all ages experience incontinence and we're making steps to reduce the stigma associated with it. We always encourage our clients to consider providing incontinence hygiene units in male washrooms, to ensure you're meeting universal hygiene needs of all staff and visitors.

The Simply Silver Service

We keep your hygiene units in situ for the duration of your contract. They are cleaned and sanitised and the liner is changed at every service. Years of experience have shown us this is the most efficient and discreet service method, minimising disruption to your business.

All our hygiene units come with Simply Silver antimicrobial liners as standard. Featuring silver ion technology, our liners significantly reduce bacterial growth and combat odours.

Simply Silver™
ANTI-MICROBIAL TECHNOLOGY

Capacity: 23 litres

Dimensions: 510mm(w) x 550mm(h) x 160mm(d)

Baby Changing Services

Safeguarding our waterways

We take our responsibility as a guardian of our waterways very seriously. Since Simply Washrooms was founded 20 years ago, our products and services constantly help to reduce the impact of human hygiene and medical waste on our waterways.

Every time you use one of our hygiene bins, you can be sure that you are diverting harmful waste away from our rivers and waterways, and into our WasteWise recycling programme.

The more waste that goes into our bins, the less pollutants enter our waterways. We encourage all our clients to only put the three Ps down the toilet: paper, poo and pee.

Putting anything else down the toilet runs the risk of blocking sewers, which increases the likelihood of sewage being released into rivers.

I'm the bin for your
NAPPY WASTE
Your waste is being turned into a renewable fuel source
simply

Bambina

Capacity: 50 litres
Dimensions: 435mm(w) x 658mm(h) x 370mm(d)
Finishes: White, grey and yellow

Key features

- 50-litre pedal operated nappy bin
- Compact and modern design
- Robust and aesthetically pleasing
- Large centrally positioned aperture for easy nappy disposal
- Designed throughout to minimise dirt traps and ease cleaning

Our range of baby changing services ensures you're equipped to meet the needs of your youngest visitors while creating a safe and hygienic environment.

All waste collected from our nappy bins goes straight into our 'Energy from Waste' process, part of our 'WasteWise' strategy to reduce the impact of waste on the environment.

External Waste Unit

Capacity: 360 litres or 240 litres
Dimensions: 1370mm(w) x 1090mm(h) x 780mm(d)
580mm(w) x 1070mm(h) x 740mm(d)
Finishes: Yellow

Key features

- Comes equipped with a lock
- Capacity to hold 6-7 bin bags or 4-5 bin bags for 240 litres version
- Robust and safe
- Ensures compliance with waste removal legislation

Air Care Services

Harnessing the power of pure oxygen, Simply's Carbon Trust approved Oxy-Gen range of air freshening systems delivers consistent and continual ambient fragrance without any solvents, propellants, volatile organic compounds (VOCs) or other environmentally unfriendly emissions.

The system is unaffected by humidity, temperature or other environmental factors – making it the ideal solution for high-traffic areas. Cartridges are EU, CARB and REACH compliant and come in a range of fragrances to suit any location.

Oxy-gen VIVA!e

Dimensions: 64mm(w) x 150mm(h) x 70mm(d)

Finishes: Available in a range of colours and finishes

Key features

- Compact, stylish and contemporary design
- Provides 60 days of continuous fragrance
- Uses Netra-Lox, a proprietary odour neutralising agent to eliminate, not mask, any bad odours, leaving only fresh scent in the air
- Wide range of fragrances available

Oxy-gen Pro

Dimensions: 117mm(w) x 140mm(h) x 103mm(d)

Finishes: White

Key features

- Programmable odour control system
- Provides 60 days of continuous fragrance
- Cartridge contains 35 ml of pure fragrance oil – four times more fragrance oil than a standard metered aerosol can

Oxy-gen Supreme

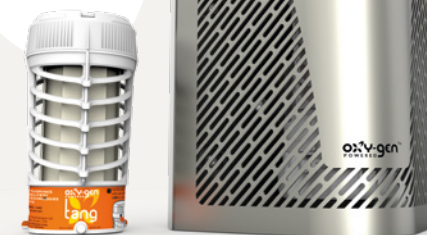

Dimensions: 64mm(w) x 150mm(h) x 70mm(d)

Finishes: Broad range of colours and finishes

Key features

- Clean, stylish, modern design
- Boosted airflow to deliver more fragrance
- Covers up to 170 metres square
- LED light indicators provide battery and cartridge replacement reminders

Oxy-gen Shield

Dimensions: 169mm(w) x 155mm(h) x 88mm(d)

Finishes: Stainless steel

Key features

- Stylish and robust stainless-steel system with anti-vandal locking device
- Its smooth contours mean that potential vandals are unable to grip and tamper with the system
- Unique ventilation design ensures maximum airflow
- Vandal and tamper-proof
- Stainless steel body reduces usage of plastic
- Refill is 100% recyclable

Air Care Services

The Simply Scent Diffuser

Scent is an important emotional influencer – it can evoke memories and leave a lasting impression.

The Simply Scent Diffuser

Fragrance can be used as a solution to mask unpleasant odours, but it can also be turned into a 'user' experience to trigger certain behaviours and stimulate emotions.

The Simply Scent Diffuser is a plug-in unit which creates a fragrant atmosphere for large to medium-sized spaces, with the option of an HVAC installation.

The diffuser utilises advanced atomiser technology to create a constant fine mist of fragrance which is then diffused in the environment.

Dimensions: 290mm(w) x 272mm(h) x 102mm(d)

Finishes: Black matt

Key features

- Up to 1000m³ coverage (35,314ft)
- Wall mounted or free-standing
- DC 12V operation and HVAC option
- Operates almost silently
- Range of fragrances available, including seasonal scents

- Programmable flush delay – 30mins, 60mins
- Performs hygiene flush every 12 hours if no motion detected – complying with legal requirements

Vending Services

Our vending services provide an effective and convenient way to ensure your washroom users never need to worry about accessing period products.

Certified

Corporation

Dual-Vend Unit

Dimensions: 260mm(w) x 900mm(h) x 190mm(d)

Finishes: White and silver

Key features

- Suitable for all washroom environments
- Dual column vending machine
- Secure, manual operation
- Robust and high security casing

Auto-Vend Unit

Dimensions: 260mm(w) x 900mm(h) x 185mm(d)

Finishes: Black, white and silver

Key features

- The perfect vending unit for washrooms with limited space
- Practical and robust design
- Compact and sleek design
- Robust and high security casing

Period Dignity Services

We believe access to free period products is a basic right.

We partner with fellow B Corp, Grace & Green, to provide a full range of organic period products and 'free-vent' dispensing services, so you can provide your washroom users with access to free, sustainable period products.

Free-Vend Unit

Dimensions: 280mm(w) x 500mm(h) x 100mm(d)

Finishes: Other colours available

Key features

- Hold up to 70 pads and 350 tampons
- Easy to refill from top
- Metal rather than plastic unit
- Can be recycled

Plant-based (non-plastic) dispenser

Dimensions: 145mm(w) x 95mm (h) x 100mm (d)

Finishes: Available in the colour of your choice

Key features

- Eco-friendly and fully recyclable
- Compact design to fit washroom surfaces
- Fully customisable – logo and colour
- Perfect for washrooms where wall-mounted units are unsuitable

Ethical Period Care

Key features

- Certified organic cotton tampons and bamboo pads
- Zero pesticides, dyes, bleaches or other toxic chemicals
- Recyclable or biodegradable packaging, including tampon applicators
- Grace & Green branded metal counter-top tins available

Air Purification Services

Standard room cleaning and disinfection is sometimes not enough

Our AIRsteril air purification systems guarantee constant infection and odour control by treating the root cause and destroying bacteria, viruses or mould, ensuring the air and all exposed surfaces are sanitised.

The systems generate ultraviolet germicidal irradiation (UVGI), which uses ultraviolet light to kill or inactivate microorganisms, resulting in greatly improved air quality and a more hygienic environment.

AIRsteril®

Washroom Complete Range

Model options: WC20 / WC30 / WC30X / WC40X

Key features

- The perfect air purification system for all washroom environments
- Eliminates unpleasant odours
- Controls harmful bacteria and viruses in the air and on all exposed surfaces
- Robust case with colour matching end caps in an attractive honeycomb design
- Bright blue indicator to clearly show system performance
- Flexible wall or ceiling mounting

Air Silent Range

Model options: AS10 / AS10X / AS20 / AS20M / AS20X

Key features
